## ENTERPRISE TECHNOLOGY SOLUTIONS (ETS)

The Kforce Government Solutions (KGS) Enterprise Technology Services (ETS) team partners with federal, civilian, and DoD agencies to provide innovative enterprise technology solutions that solve complex communication and data processing challenges. ETS solutions deliver improved efficiency through automation, knowledge and reporting, covering a full range of enterprise technology needs:

- Custom software application design and deployment to solve the unique operational and communication challenges of government agencies
- Enterprise system architecture and application integration, including business logic and interface design
- Business Intelligence solutions providing historical, current, and forecast views of business operations to enable better decision making
- Data Management solutions to ensure accurate, available information
- Ongoing operation and maintenance of software systems once deployed
- Help Desk/Service Desk operations to respond to daily technical inquiries

KGS creates and implements integrated and enduring solutions to resolve a client organization's most complex challenges. Combining domain expertise with Data Confidence® practices enables our associates to provide clients with customized solutions built upon proven methods.

## END-TO-END INTEGRATED SOLUTIONS

Reliable systems, software, and communications are essential for agency operations and the successful completion of mission objectives. The KGS Enterprise Technology Solutions (ETS) team partners with federal, civilian and DoD agencies to deliver enterprise-wide technology solutions with Data Confidence® practices built-in, enabling faster decisions with information you can trust.

ETS services include:

- **Business Systems Planning, Analysis, Architecture**
- **Software Engineering & Analysis**
- **Enterprise Infrastructure/Operations Transition**
- **Enterprise Application Integration**
- **Data Centered Systems Engineering**
- **Applications Design/Development/Maintenance**
- **Business Intelligence Solutions**
